Rivestimento per pareti in tessuto, personalizzabile.

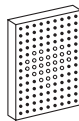

Customisable fabric wall covering.

BABOON LIGHT

Rivestimento per pareti in tessuto, personalizzabile e luminoso.

Customisable and luminous fabric wall covering.

BABOON DYNAMIC

Rivestimento per pareti in tessuto, personalizzabile, con illuminazione dinamica.

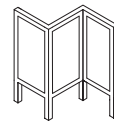

Customisable fabric wall covering with dynamic lighting.

BABOON SILENCE

Rivestimento per pareti in tessuto, personalizzabile, con interno fonoassorbente.

Customisable fabric wall covering with sound-absorbing interior.

BABOON FOLD

Struttura divisoria per interni.

Privacy screen for interiors.

ABOUT

Baboon Covering decora gli spazi rendendo efficace la tua comunicazione.

Statiche o in movimento, a parete, self-standing o appese, le strutture Frame di Baboon Covering sono personalizzabili in tutti i loro aspetti, in base alle necessità di progetto. Ad ogni dettaglio viene dedicata cura sartoriale: dal profilo in alluminio verniciabile, alla grafica del tessuto, fino alla scelta di LED o pannello fonoassorbente.

Versatili e adattabili ad ogni ambiente, dai contesti retail agli interni di ristoranti e locali, dai cinema e teatri alle hall di alberghi, i Frame Baboon valorizzano la comunicazione, enfatizzando al meglio la grafica stampata.

Baboon Covering è sensibile ai temi ambientali e crede che il cambiamento sia possibile, partendo anche dai piccoli gesti. Con Frame, vuole introdurre una logica di economia circolare nell'ambito del rivestimento e della decorazione di pareti.

Il telaio in alluminio e il gommino in silicone cucito sul tessuto di rivestimento possono essere riciclati e portati allo stato originario per un riutilizzo successivo.

Le grafiche sono stampate a sublimazione con inchiostri ad acqua, eco-compatibili e 100% VOC free.

I cambi d'immagine viaggiano smontati all'interno di tubi in cartone, riducendo al massimo i costi di logistica in un'ottica di sostenibilità.

The Baboon Covering decorates spaces making your communication effective.

Frame structures by Baboon Covering can be static, dynamic, self-standing, wall-mounted or hanging, depending on your needs and desires. Every detail, including the paintable aluminium profile, the fabric's graphics, the LEDs and the sound-proof panel, is executed to perfection.

Baboon frames can be adapted to any setting, shop, restaurant, bar, cinema, theatre, and hotel hall. They boost communication, enhancing the printed graphics.

Baboon is sensitive to the environment and believes that small gestures can make a difference. And now, with Frame, it aims at introducing circular economy in the wall covering and decoration market.

The aluminium frame and the silicone grommet sewn on the fabric can be recycled and restored for subsequent use. Graphics are printed with the dye-sublimation technique using water-based inks, which are eco-friendly and 100% VOC free.

Fabric graphics travel disassembled and inside cardboard tubes to minimise logistics costs and promote sustainability.

FRAME SOLUTION

Baboon Frame è composto da un profilo in alluminio e un rivestimento in tessuto e carta da parati. La grafica è personalizzabile e sostituibile in base alle necessità e ai contesti d'applicazione.

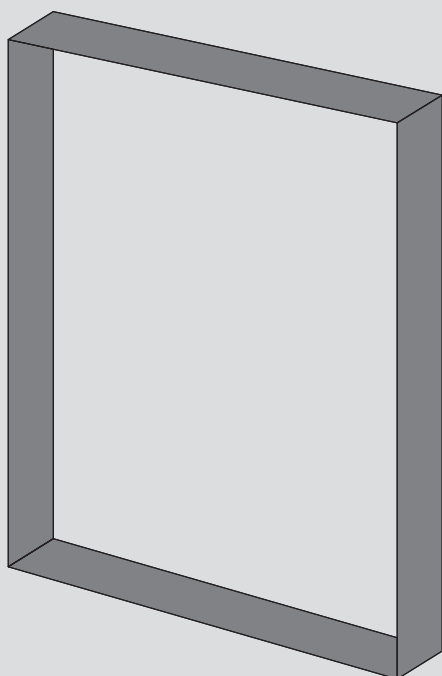

Questa struttura, grazie ad accessori e soluzioni dedicate, si declina in cinque prodotti diversi: CoverUp, Baboon Light, Baboon Dynamic, Baboon Silence e Baboon Fold.

Baboon Frame consists of an aluminium profile and a fabric or wallpaper covering, declined in different types of products. The graphics can be customised and replaced based on the needs and applications.

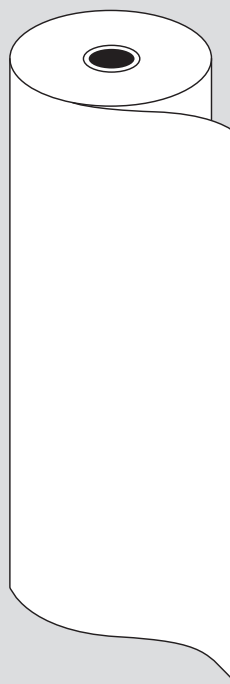

This structure can give life to five products thanks to dedicated accessories and solutions: CoverUp, Baboon Light, Baboon Dynamic, Baboon Silence and Baboon Fold.

SERVIZI

Services

L'esperienza ci ha portati a sviluppare ed ottimizzare tecniche di produzione avanzate, per fornire un servizio veloce e impeccabile. Il nostro know how produttivo permette la gestione completa dei progetti dal file alla produzione.

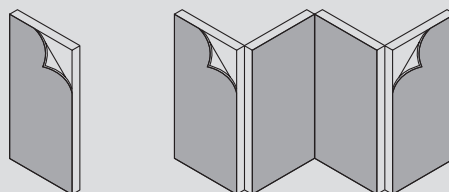

Our experience allows us to develop and optimise state-of-the-art production techniques and provide fast and impeccable service. And we can manage every step of a project from file to production thanks to our expertise.

1. Configurazioni personalizzabili – Customisable configurations

Le configurazioni dei prodotti Baboon Frame sono personalizzabili, per soddisfare ogni necessità.

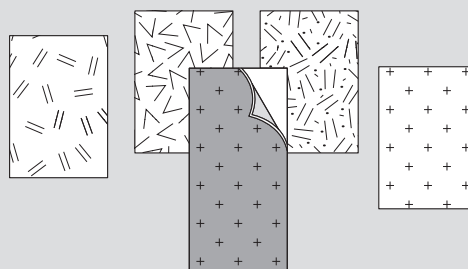

Baboon Frame products can be configured based on your needs.

2. Grafiche Baboon – Baboon graphics

Baboon dispone di una libreria di grafiche disponibili ed adattabili ai supporti Frame.
→ Vedi pagina 75.

Baboon has a wide range of graphics that can be adapted to the Frame supports.
→ See page 75.

3. Profilo personalizzabile – Customisable profile

Il profilo in alluminio può essere anodizzato, rivestito o verniciato in qualunque tonalità, ottenendo molteplici effetti ottici e di finitura.

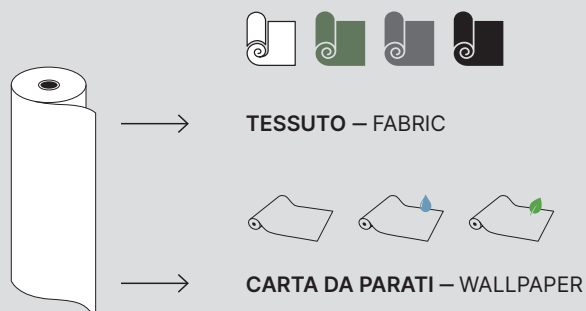

The aluminium profile can be anodised, covered, or painted in any shade to obtain multiple optical effects and finishes.

4. Scegli il supporto – Choose the support

La gamma di supporti disponibili è ampia.
Si divide in tessuti e carte da parati.
→ Vedi pagine 6-7.

We have a wide range of supports, which can be made with fabric or wallpaper.
→ See pages 6-7.

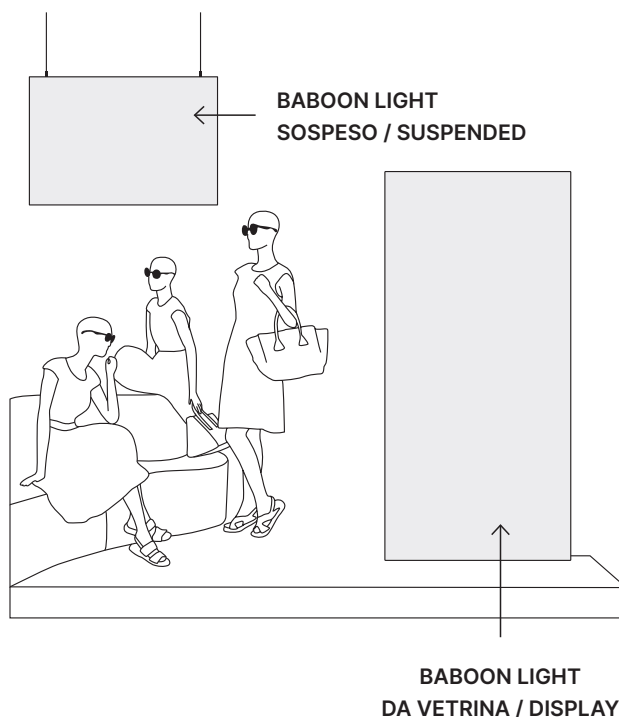

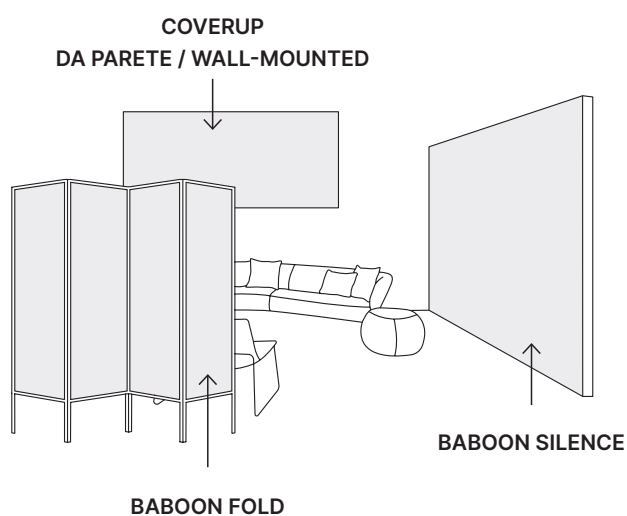

CONTESTI DI APPLICAZIONE

Field of application

Installati a parete, sospesi o ancorati a terra, i prodotti Baboon Frame si adattano ad ogni contesto. La grafica personalizzabile rende unico ogni ambiente.

Wall-mounted, suspended, or self-standing, Baboon Frame products can fit into any space. The customisable graphics make every setting unique.

Showroom e uffici

Showroom and offices

Showroom e uffici sono luoghi perfetti per ospitare Baboon Light da parete e pannelli fonoassorbenti. Anche Baboon Fold trova il suo posto negli angoli più intimi degli open space.

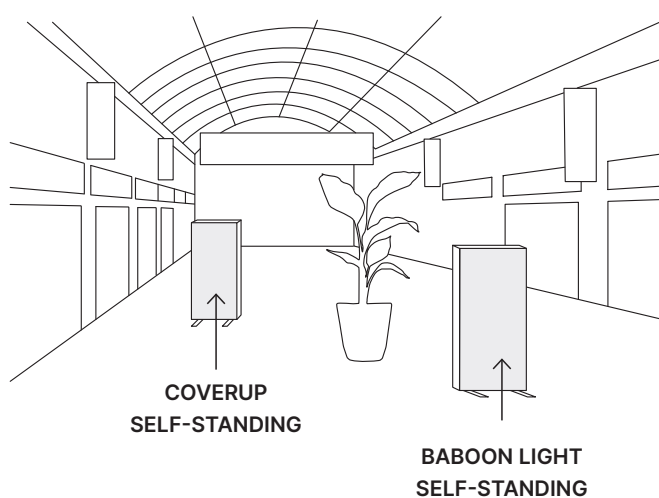

Showrooms and offices are perfect for a wall-mounted CoverUp frame and sound-absorbing panels. And Baboon Fold creates cosy and intimate corners in open-plan layouts.

Negozi e vetrine

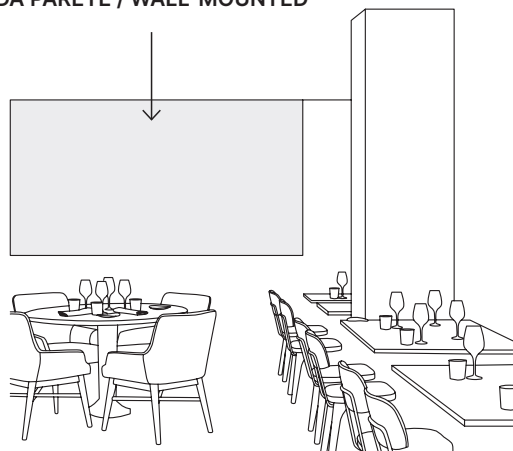

Shops and windows

In vetrina o sospeso mediante cavetti d'acciaio, Baboon Light illumina i negozi. Una soluzione che cattura l'attenzione dei clienti e permette il rinnovamento continuo dell'aspetto del negozio.

Whether in the shop window or hanging from steel cables, Baboon Light brings a new light to your shop. This solution catches customers' attention and continuously renews the shop's appearance.

**BABOON DYNAMIC
DA PARETE / WALL-MOUNTED**

Centri commerciali

Shopping centres

CoverUp e Baboon Light self-standing, posizionati nei corridoi dei centri commerciali, decorano l'atmosfera con grafiche personalizzate e offerte imperdibili.

Self-standing CoverUp and Baboon Light decorate shopping centres with customised graphics and draw attention to unmissable offers.

Bar e ristoranti

Bars and restaurants

Baboon Light da parete illuminato con LED statici o dinamici contribuisce all'arredamento di locali come bar e ristoranti, conferendo un look moderno e accattivante.

Wall-mounted Baboon Light illuminated with static or dynamic LEDs helps furnish bars and restaurants, ensuring a modern and catchy look.

CoverUp

Your wall, your CoverUp.

CoverUp è una soluzione innovativa per rivestire le pareti e decorare gli ambienti.

Progettato per offrire libertà di personalizzazione e per essere facilmente configurabile, è disponibile a parete e self-standing.

La sua struttura è riutilizzabile, all'insegna della sostenibilità. Il tessuto di rivestimento personalizzabile, gli permette di assumere qualsiasi aspetto e mood.

Your wall, your CoverUp.

CoverUp is an innovative solution to cover walls and decorate settings.

It's designed to be customisable and easily configured. It comes in two versions: wall-mounted and self-standing.

Its structure can be reused to promote sustainability. Even the fabric can be customised to obtain any effect.

Baboon Dynamic

Your wall, your Dynamic.

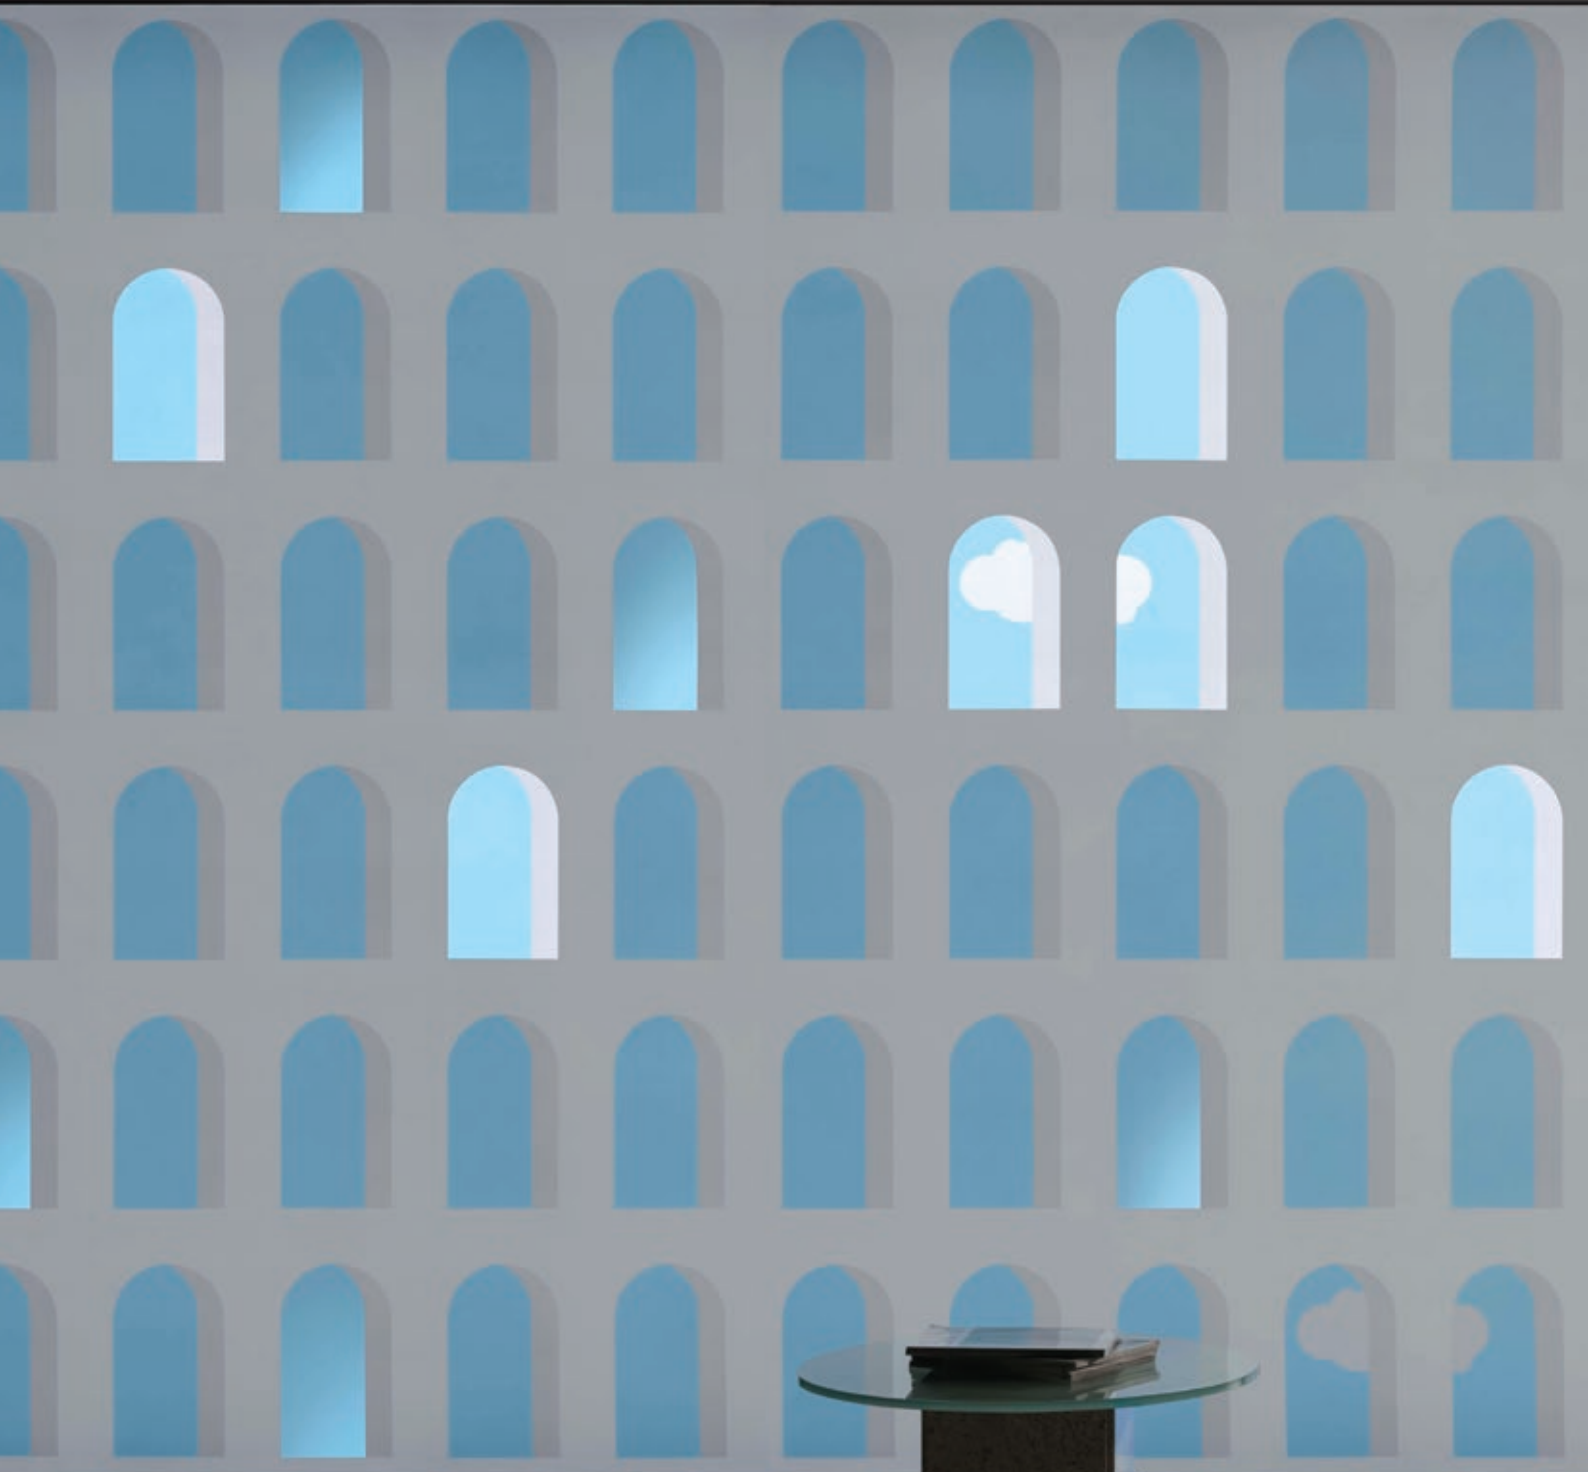

Baboon Dynamic dà vita agli ambienti. È la versione di Baboon Light con i LED programmabili. La sua tecnologia permette ad un'immagine statica di diventare dinamica, consentendo di creare vere e proprie animazioni luminose, che interagiscono con la grafica stampata sul telo.

La retroilluminazione dinamica garantisce l'aumento esponenziale dell'impatto visivo, grazie a effetti di luce inaspettati.

Your wall, your Dynamic.

Baboon Dynamic brings spaces and settings to life. This is the Baboon Light version with programmable LEDs. Its technology turns a static image into a dynamic one, creating luminous animations that interact with the graphics printed on canvas.

The dynamic back-light increases the visual impact exponentially, thanks to unexpected light effects.

BABOON COVERING

DYNAMIC

in questa pagina / in this page, Baboon graphic: EU, design Alberto Ghirardello on demand

BABOON DYNAMIC

da parete / wall-mounted

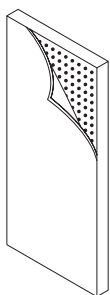

Baboon Dynamic è dotato di piastre LED in tutta la superficie rivestita. Le grafiche stampate sui tessuti vengono rese dinamiche dalla programmazione dei LED, che avviene caricando l'animazione mediante una chiavetta USB.

Le animazioni che si possono caricare sono infinite, come le grafiche stampabili.

Baboon Dynamic is lined with LED plates. The LEDs make the graphics on fabrics dynamic by uploading the animation through a USB pen drive.

You can upload as many animations and printable graphics as you want.

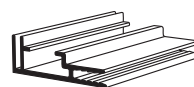

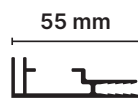

Con LED a fondello – With bottom LEDs

I LED a fondello permettono a tutta la superficie di essere illuminata direttamente.

Bottom LEDs illuminate the surface directly.

Baboon Silence

Your wall, your Silence.

Baboon Silence è pensato per tutti quegli spazi condivisi, caratterizzati da situazioni rumorose, quali uffici, bar e ristoranti.

La sua struttura da parete prevede l'aggiunta di un pannello di fibra in poliestere ad alto assorbimento, all'interno del profilo in alluminio.

Il tessuto personalizzabile, utilizzato per coprire Baboon Silence e la sua tecnologia permettono di ridurre al minimo ogni riverbero.

Your wall, your Silence.

Baboon Silence is intended for big, noisy spaces like offices, bars, and restaurants.

Its wall-mounted structure includes a highly absorbing polyester panel inside the aluminium profile.

The customisable fabric used to cover Baboon Silence and its technology minimise reverberation.

BABOON COVERING

SILENCE

in questa pagina / in this page, Baboon graphic: LOCKDOWN, design JoeVelluto Studio on demand

BABOON SILENCE

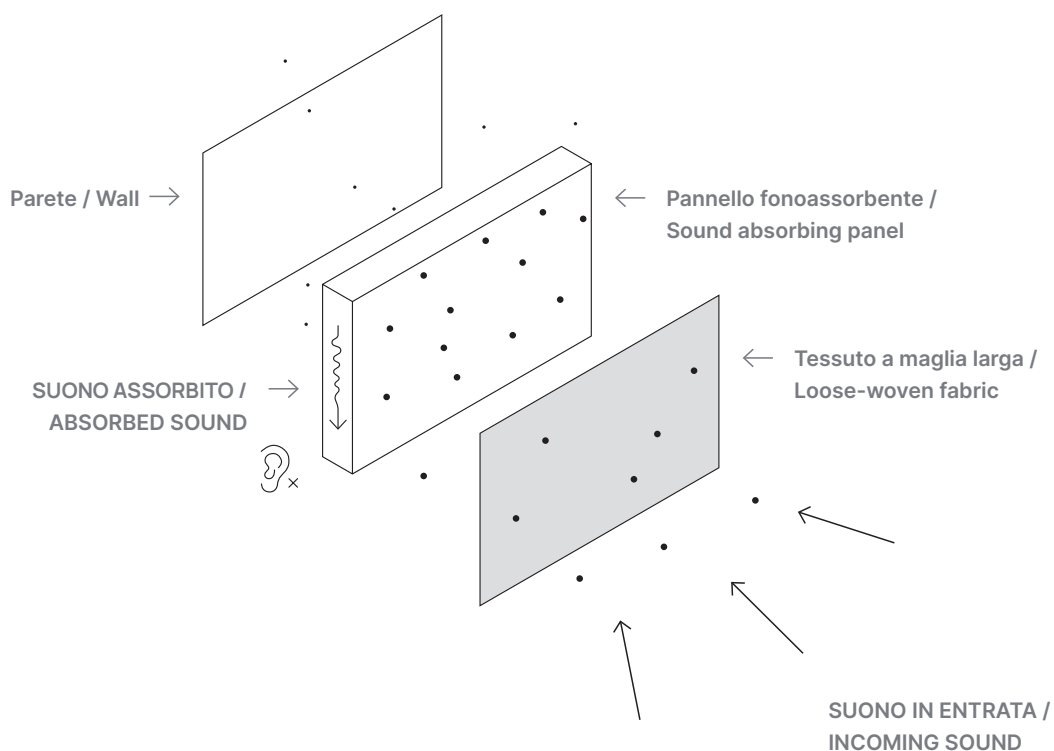

da parete / wall-mounted

Baboon Silence ottimizza l'acustica degli ambienti, decorandoli.

Il suono, passando attraverso il tessuto a maglia larga, viene bloccato dal pannello in fibra di poliestere ad alto assorbimento, diminuendo il riverbero all'interno degli spazi chiusi come uffici, bar e ristoranti.

Baboon Silence optimises acoustics while decorating the setting.

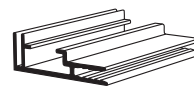

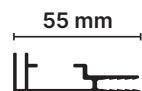

The sound passing through the loose-woven fabric is blocked by a highly absorbing polyester panel, reducing reverberation in indoor spaces like offices, bars, and restaurants.

La struttura può rivestire un'intera parete oppure una sola fascia.

This structure can occupy an entire wall or just a strip.

Materiali

Materials

Noi di Baboon non ci fermiamo mai. Siamo sempre alla ricerca di soluzioni innovative per migliorare il nostro servizio ed incontrare tutte le esigenze di progetto.

La scelta dei materiali per noi è fondamentale. Con le strutture Baboon Frame cerchiamo di ridurre al minimo l'impatto ambientale. Tra i rivestimenti disponibili prediligiamo le alternative green. I profili in alluminio, possono essere riciclati ripetutamente, mantenendo sempre le qualità del prodotto originario, come il gommino in silicone che cuciamo sul tessuto.

We at Baboon never stop creating. We're always looking for innovative solutions to improve our service and meet every project need.

Choosing the right materials is crucial. With Baboon Frame structures, we strive to minimise environmental impact. In fact, we always opt for eco-friendly coverings. The aluminium profiles and the silicone grommet we sew on the fabric can be recycled repeatedly while preserving the same quality.

TESSUTO TRASLUCENTE

Translucent fabric

Tessuto stampabile a sublimazione con inchiostri ad acqua, eco-compatibili e 100% VOC free. Questo permette di assicurare un'altissima brillantezza del colore, maggiormente accentuata dalla tecnica di retroilluminazione.

Fabric printed with the dye-sublimation technique using water-based inks, which are eco-friendly and 100% VOC free. This technique ensures the brightest colours emphasised by the backlight.

Materiale – Material	100% Poliestere	100% Polyester
Larghezza – Width	315,00 cm	124 inches
Peso – Weight	240 gr/m²(± 3%)	240 gr/m ² (± 3%)
Reazione al fuoco – Fire resistance	DIN 4102 B1	DIN 4102 B1

TESSUTO TRASLUCENTE GREEN

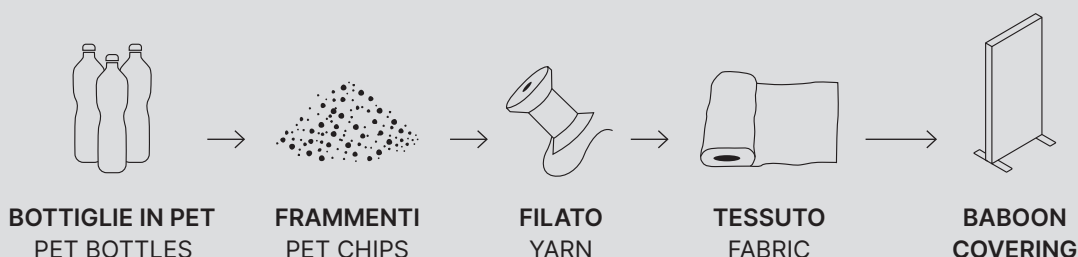

Green translucent fabric

Tessuto per le campagne di comunicazione ecosostenibili. Derivato dalle bottiglie di plastica sminuzzate e ridotte a filato, è adatto per essere retroilluminato. La stampa a sublimazione con inchiostri ad acqua, eco-compatibili e 100% VOC free, permette una resa ad alta definizione.

Fabric for environmentally sustainable communication campaigns. Its yarns originate from shredded plastic bottles, making it suitable for backlighting. Graphics are printed with the dye-sublimation technique using water-based inks. This technique is eco-friendly, 100% VOC free, and ensures high definition.

TESSUTO RETRO NERO

Black rear fabric

La particolarità di questo tessuto è il retro nero. Le stampe risultano uniformi e coprono in modo omogeneo le pareti. Utilizzato nei CoverUp a parete e self-standing, questo materiale non crea grinze e può essere quindi facilmente spedito piegato. Viene stampato a sublimazione con inchiostri ad acqua, eco-compatibili e 100% VOC free. La sua resa è brillante e precisa.

Its black rear makes this fabric unique. Prints are uniform and cover the walls evenly. This material is used in wall-mounted and self-standing CoverUPs because it doesn't crease and can be easily folded for transport purposes. It's printed with the dye-sublimation technique using water-based inks, which are eco-friendly and 100% VOC free. It ensures brightness and precision.

Materiale – Material	100% Poliestere	100% Polyester
Larghezza – Width	320,00 cm	126 inches
Peso – Weight	260 gr/m²	260 gr/m ²
Reazione al fuoco – Fire resistance	B1, DIN 4102-1	B1, DIN 4102-1

TESSUTO A MAGLIA LARGA

Loose-woven fabric

Tessuto con fibre a maglia larga, utilizzato per **Baboon Silence**. Permette il passaggio delle vibrazioni sonore che vengono poi bloccate dal pannello in poliestere. Non crea grinze e può essere quindi facilmente spedito piegato. Viene stampato a sublimazione con inchiostri ad acqua, eco-compatibili e 100% VOC free.

This loose-woven fabric is used for Baboon Silence. It allows the passage of sound vibrations blocked by the polyester panel. Moreover, it doesn't crease and can be easily folded for transport purposes. It's printed with the dye-sublimation technique using water-based inks, which are eco-friendly and 100% VOC free.

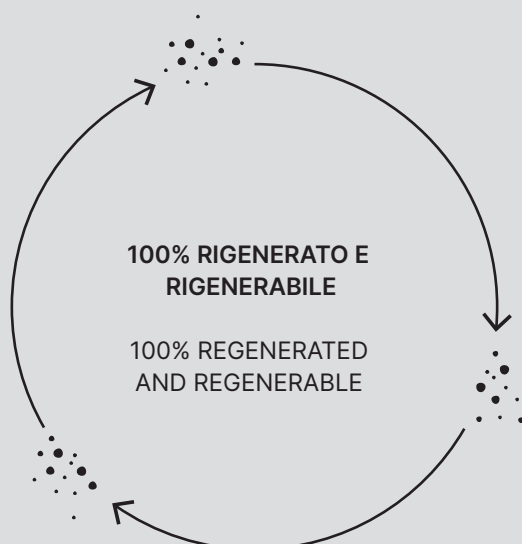

Materiale – Material	100% Poliestere	100% Polyester
Larghezza – Width	320,00 cm	126 inches
Peso – Weight	220 gr/m² (± 3%)	220 gr/m ² ± (3%)
Reazione al fuoco – Fire resistance	B-s1, d0	B-s1, d0

100% rigenerato e rigenerabile – 100% regenerated and regenerable

Il gommino è composto da granuli in PVC (polivinilcloruro) rigenerato, un polimero termoplastico vinilico molto versatile. I polimeri termoplastici, sottoposti all'azione del calore e della pressione, si possono modellare in forme che mantengono anche dopo il loro raffreddamento. In seguito a un nuovo riscaldamento esse tornano allo stato plastico e possono essere rimodellate più volte. Questo aspetto rende il compound di PVC molto versatile e ne permette l'uso (ed il riuso) in svariate applicazioni.

The grommet consists of regenerated PVC (polyvinyl chloride), a versatile thermoplastic polymer. When subject to heat and pressure, thermoplastic polymers can be moulded into shapes that are maintained even after they have cooled down. When they are heated again, they return to the plastic state and can be reshaped several times. This aspect makes this PVC compound highly versatile and reusable in a wide range of applications.

PROFILO IN ALLUMINIO

Aluminium profile

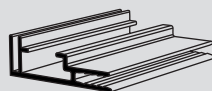

Il profilo in alluminio è leggero da trasportare e resistente. Queste caratteristiche lo rendono adattabile a molteplici forme e utilizzi. Può essere riciclato ripetutamente, conservando la qualità del prodotto originale. Il suo trattamento di finitura è personalizzabile.

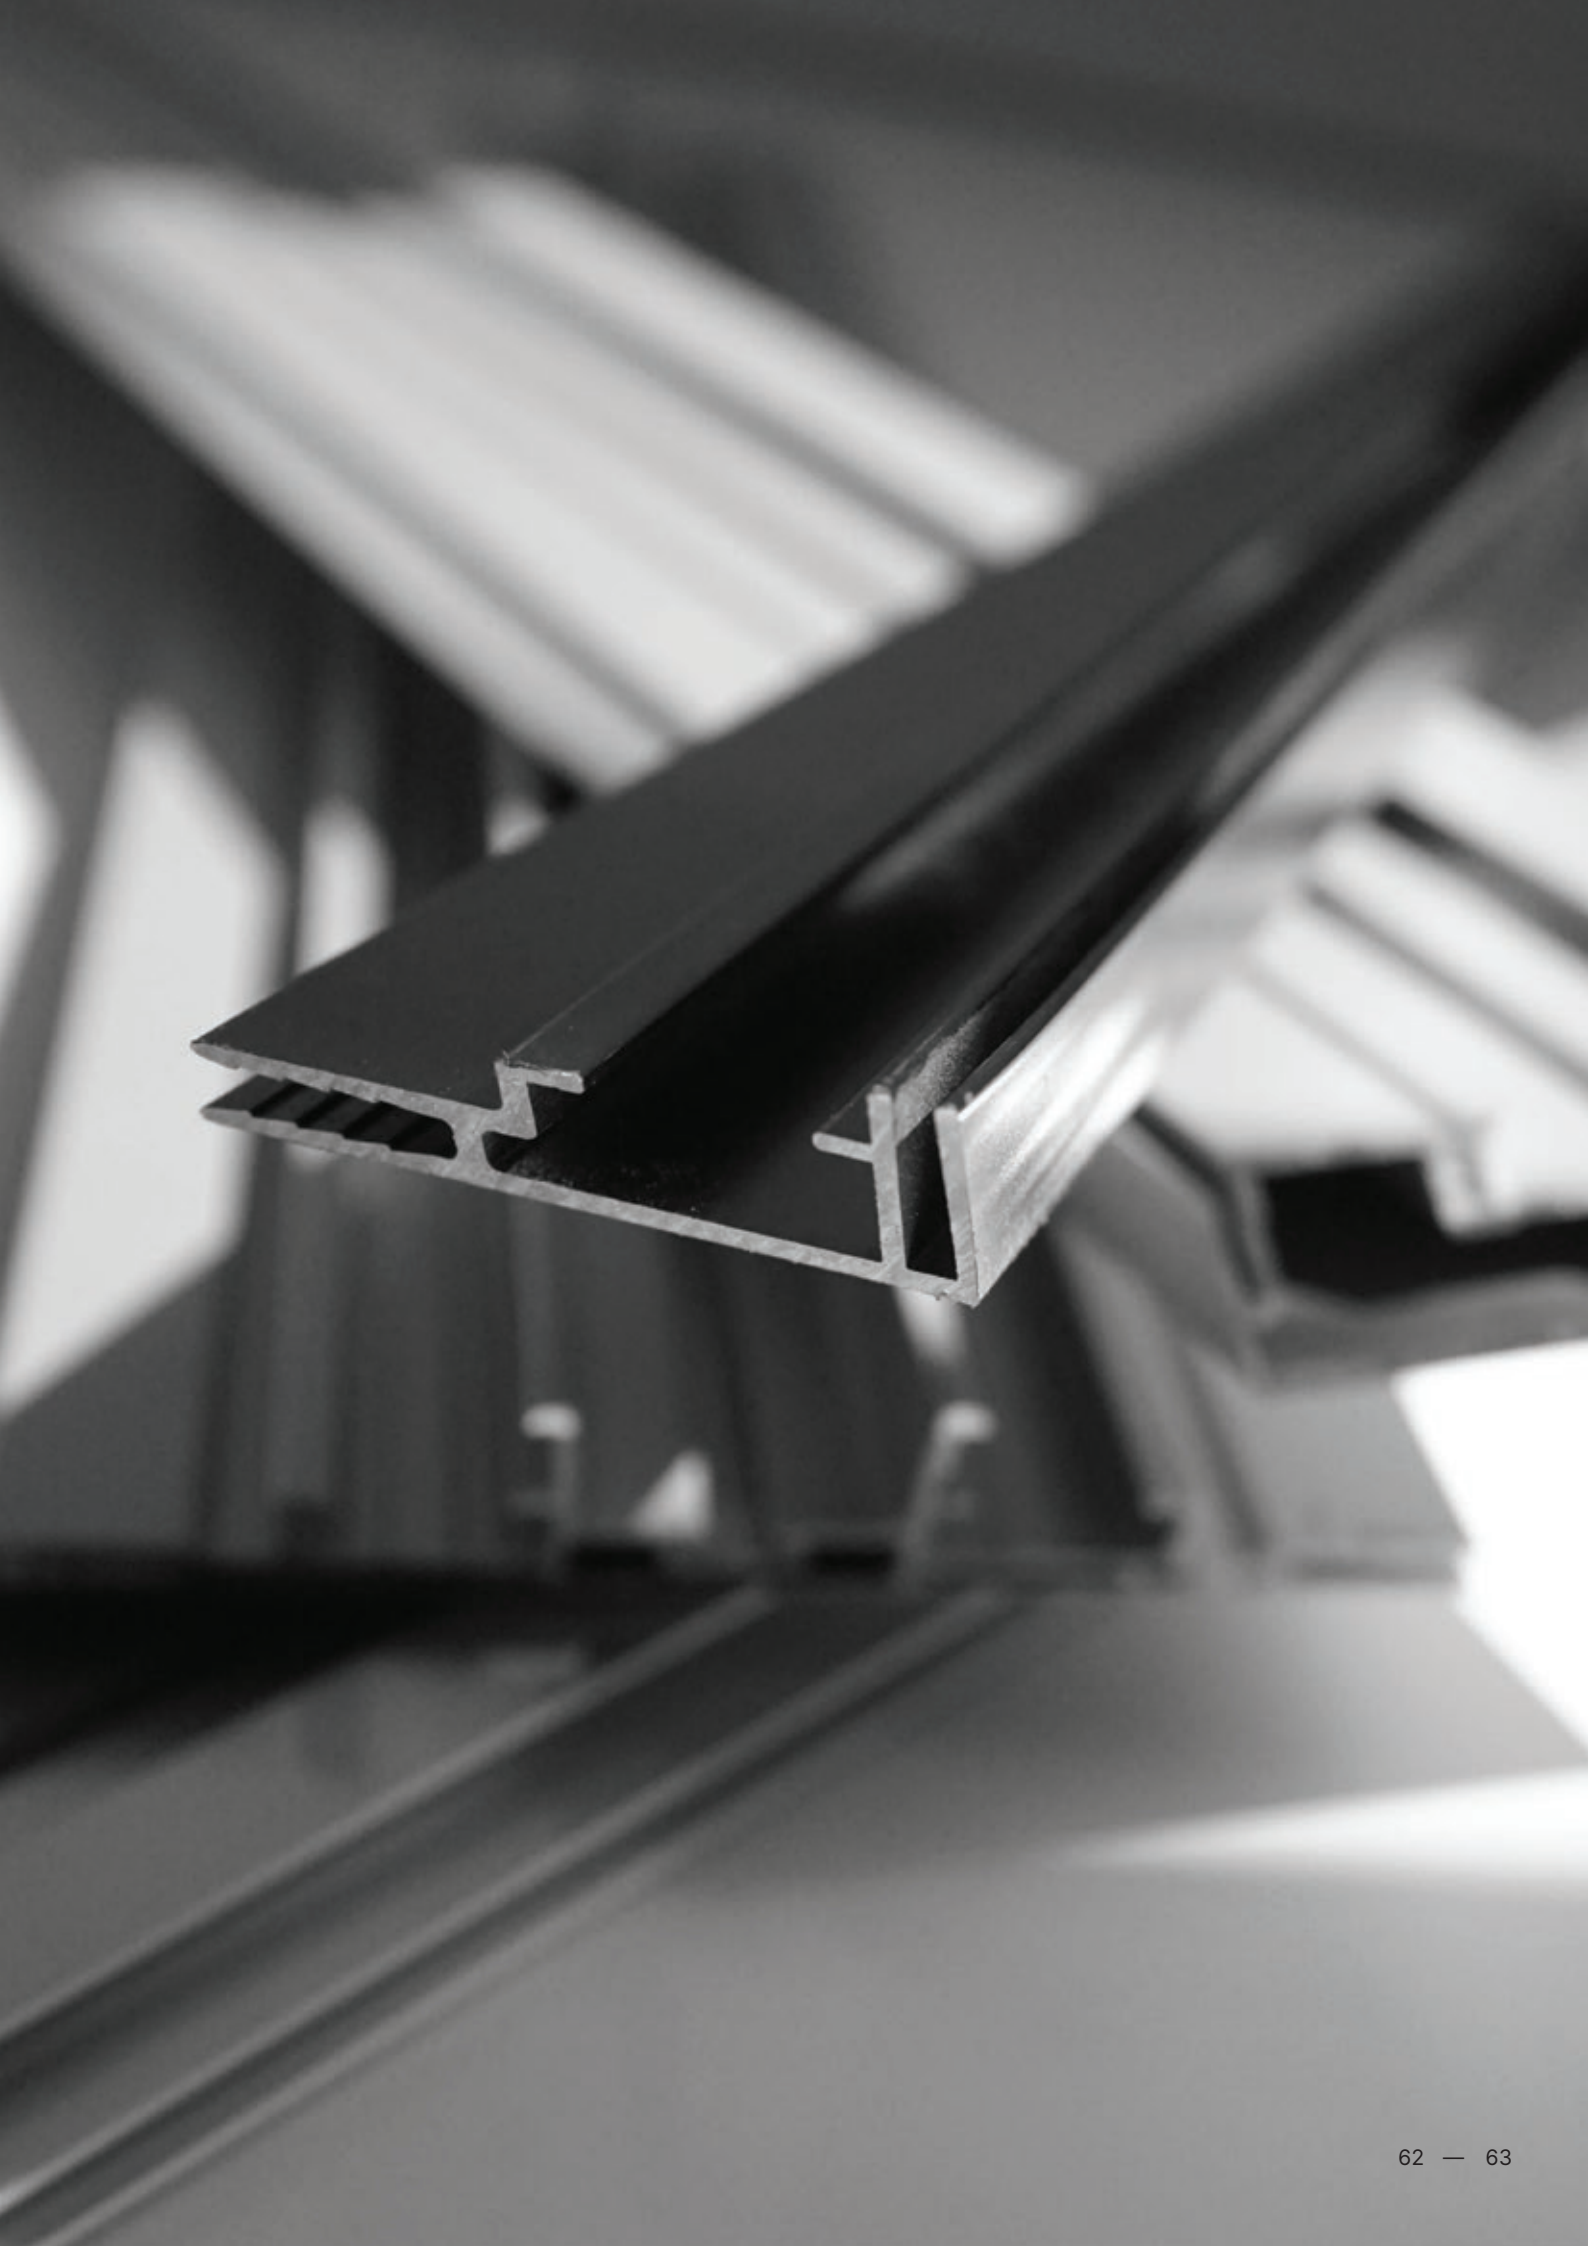

The aluminium profile is resistant and easy to transport. These characteristics make it suitable for multiple uses. It can be recycled repeatedly, maintaining its quality. Moreover, its finishing treatment can be customised.

Personalizzabile – Customisable

Il profilo in alluminio può essere verniciato sia a liquido che a polveri, per adattarsi allo stile di ogni interno, ricreando ogni colore RAL.

The aluminium profile can be painted with liquid and powder-based products to adapt to the style of the interiors, recreating every RAL colour.

VINYL-TECH COVERING

Carta da parati vinilica in TNT è ideale per ambienti interni. La versatilità e la semplicità di posa permettono di decorare anche le superfici più difficili.

La sua particolare goffratura, simile alla texture di un tessuto, la rende gradevole al tatto.

È facilmente lavabile, inodore e non assorbente.

Gli inchiostri utilizzati sono certificati Greenguard Gold.

The TNT vinyl-tech wallpaper is ideal for interiors. It's versatile and easy to install, perfect for decorating even the most problematic surfaces.

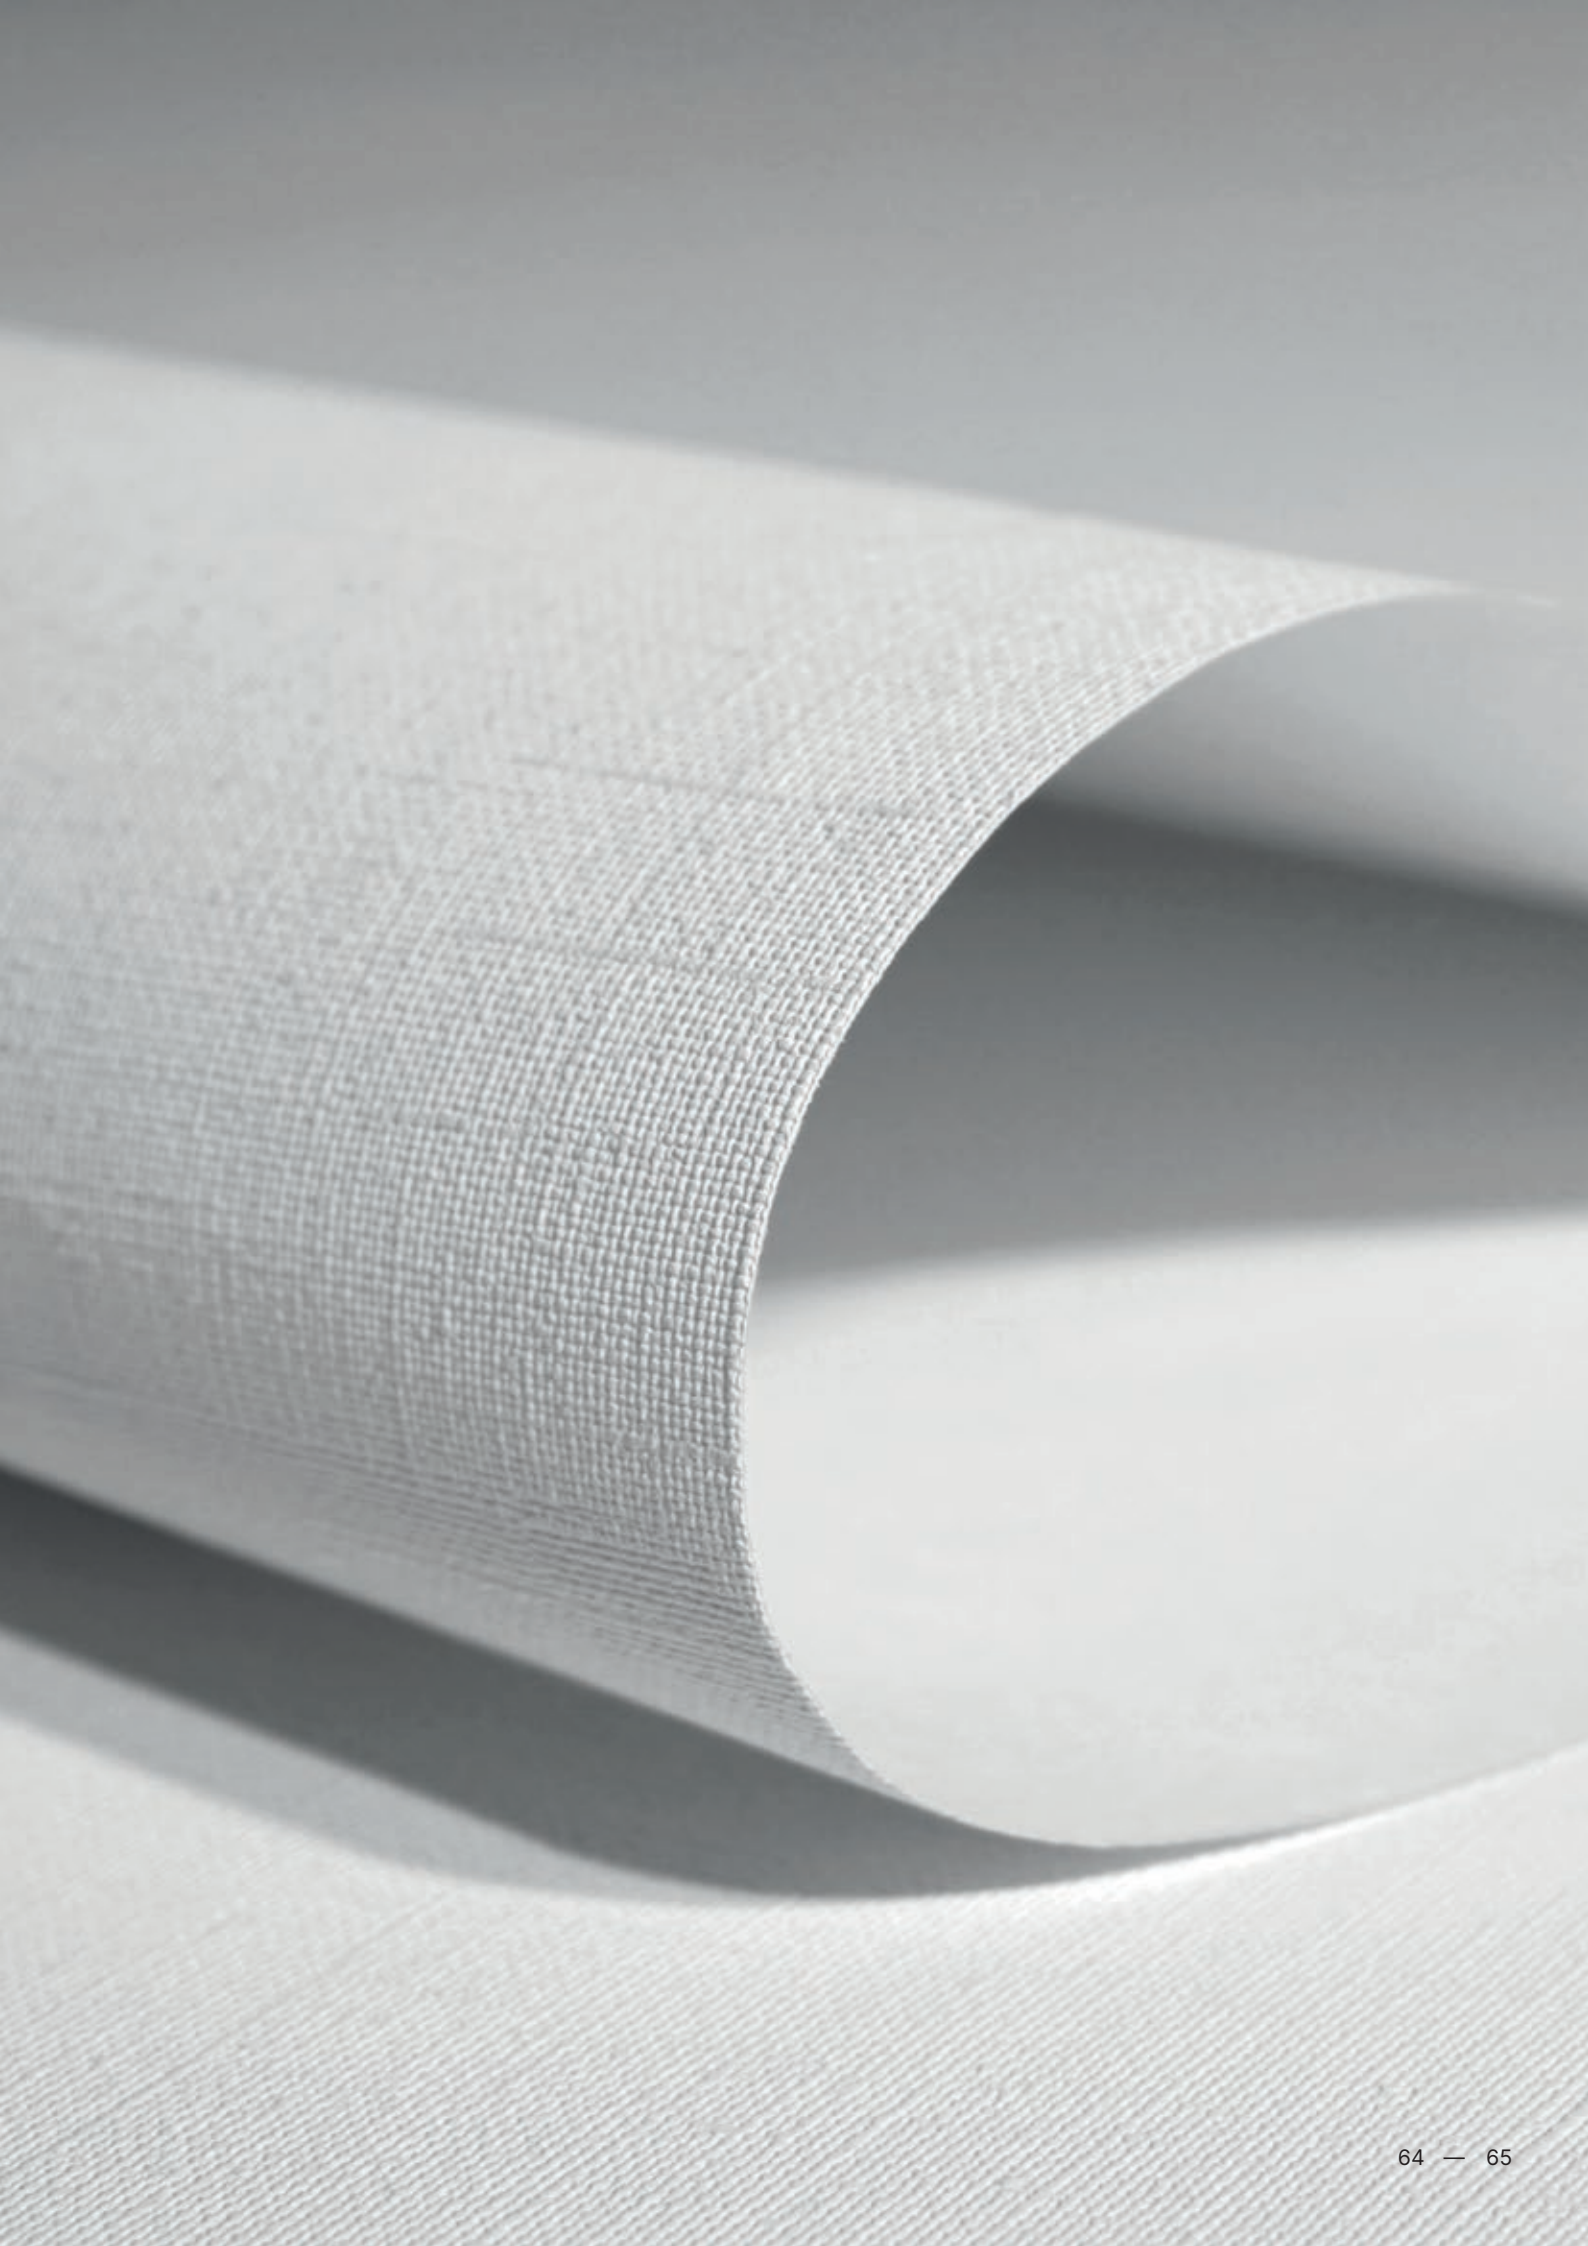

Moreover, it's pleasant to touch, thanks to its special embossing, similar to a fabric's texture.

It's odourless, non-absorbing, and easy to wash.

Plus, it's made with Greenguard Gold-certified ink.

Materiale – Material	TNT spalmato PVC	Non-woven fabric coated with PVC
Larghezza – Width	130,00 cm	51 inches
Peso – Weight	350 gr/m² ± 20%	0,071 lb/ft ² ± 20%
Reazione al fuoco – Fire resistance	Euroclass B-s1, d0	Euroclass B-s1, d0

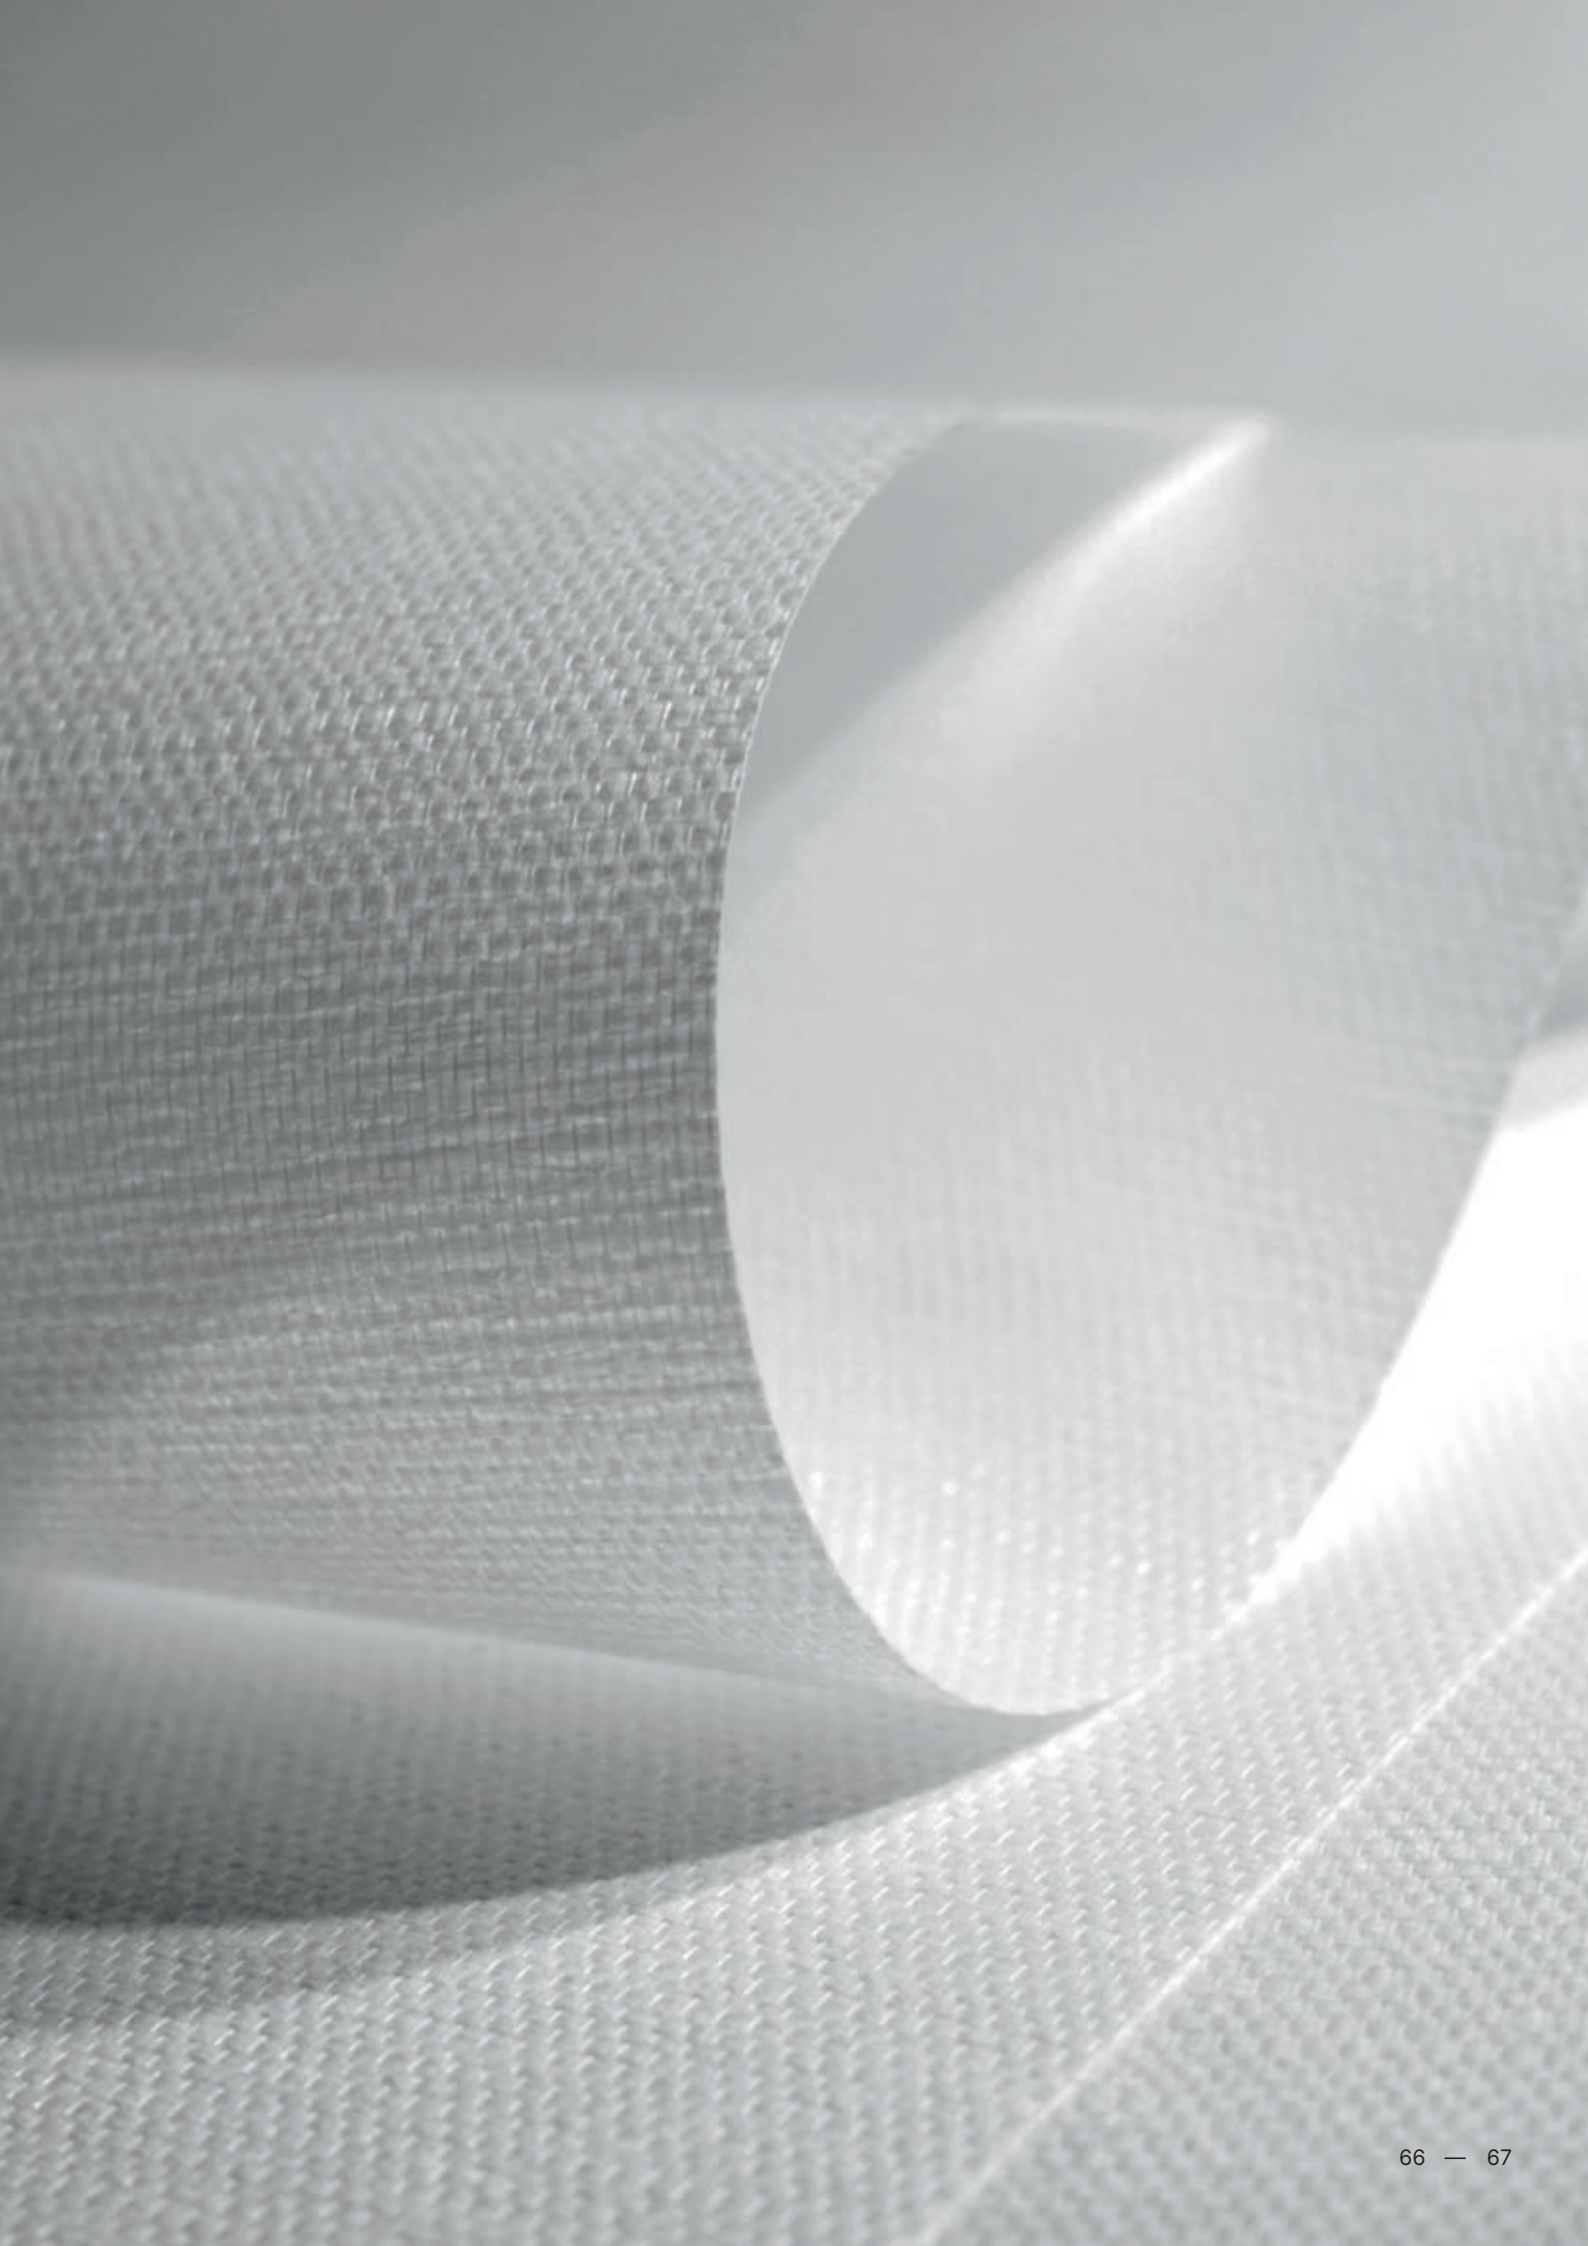

WATER-TECH COVERING

La carta da parati realizzata con filati speciali ricavati da fibre di vetro. È un rivestimento ideale per gli ambienti umidi e le superfici interne a contatto con l'acqua: spa, centri benessere, piscine, bagni, cucine. La fibra di vetro è un materiale igienico, perchè antibatterico e antimicrobico. È progettata per resistere ad urti e strappi. Ignifuga, inodore e non assorbente. È resistente ai raggi UV, non ingiallisce e non arrugginisce. Gli inchiostri utilizzati sono certificati Greenguard Gold.

The wallpaper made with special yarns obtained from glass fibre. This wall covering is ideal for humid settings and when internal surfaces are in contact with water, like spas, wellness centres, swimming pools, bathrooms, and kitchens. Glass fibre is an antibacterial and antimicrobial material. It's designed to resist impacts and tears. Moreover, fibre glass is fire-proof, odourless, and non-absorbing. It resists UV rays, and it's anti-yellowing and anti-rust. Plus, it's made with Greenguard Gold-certified ink.

Materiale – Material	Fibra di vetro	Fiberglass
Larghezza – Width	100,00 cm	39 inches
Peso – Weight	200 gr/m² ± 15%	0,040 lb/ft² ± 15%
Reazione al fuoco – Fire resistance	Euroclass B-s1, d0	Euroclass B-s1, d0

100% CELLULOSE COVERING

La carta da parati realizzata in tessuto non tessuto, composto al 100% da fibre di cellulosa. La sua origine è certificata FSC. Gli inchiostri utilizzati sono certificati Greenguard Gold. È la scelta ideale per i progetti con un'impronta green. Da utilizzare negli ambienti interni, è resistente ai graffi.

The wallpaper made with non-woven fabric, made of 100% cellulose fibre. Its origin is FCS-certified. Plus, it's made with Greenguard Gold-certified ink. This covering is ideal for environmentally sustainable projects. In addition, this wallpaper for interiors is scratch-resistant.

Materiale – Material	Fibra di cellulosa	Cellulose fiber
Larghezza – Width	124,00 cm	49 inches
Peso – Weight	185 gr/m² ± 15%	0,038 lb/ft ² ± 15%
Reazione al fuoco – Fire resistance	Euroclass B-s1, d0	Euroclass B-s1, d0

Overview tecnica

Technical overview

L'overview tecnica è uno strumento pratico e veloce da consultare, utile ai fini del progetto.

Riassume le informazioni tecniche di ogni prodotto in un'unica tabella permettendo un confronto immediato tra le varie soluzioni adottabili e disponibili.

The technical overview is a practical and fast tool for any project.

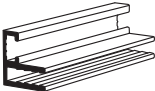

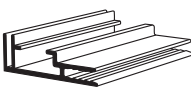

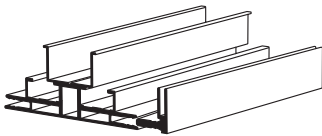

It summarises every product's technical data in one table, allowing you to compare various solutions at a glance.

Grafiche Baboon

Baboon graphics

Pattern Bespoke

Baboon è un brand creativo.

Per personalizzare il proprio progetto è possibile scegliere una grafica tra quelle proposte dal nostro catalogo. Si suddividono in pattern e bespoke. I pattern decorano lo spazio con un motivo che si ripete, mentre i bespoke sono grafiche non ripetibili.

Grazie alle nostre capacità di personalizzazione è possibile declinare la stessa grafica in diversi supporti Baboon Frame, per avere una soluzione di continuità, donando un total look agli ambienti.

Baboon is a creative brand.

You can customise your project by choosing your favourite graphics from our catalogue. They are divided into two categories: patterns and bespoke. The main difference is that the former decorates the space with a repeated motif, while bespoke graphics are not repeatable.

The same graphic design can be reproduced on different Baboon Frame supports to ensure visual continuity, giving a total look to the rooms.
